Experience

FRONT-END DEVELOPER

- HTML, CSS, Bootstrap aur Tailwind CSS ka use karke aise websites banaye jo har device pe sahi kaam karti hain.
- Simple aur saaf layouts, forms, menus aur aise parts banaye jo dobara use ho sakein, taake design clear aur easy ho.
- Layout jaldi banane ke liye Bootstrap use kiya, aur styling ke liye Tailwind CSS ka use kiya.
- Team ke sath mil kar website ke features banaye aur behtar kiye.
- Real projects pe kaam karke practical experience mila, version control (jaise Git) aur team ke sath kaam karne ka tareeqa seekha.
- Focused on creating user-friendly designs during frontend development and improved the website's look and feel using modern tools.
